

VANDOREN

56

To some, this may look like just another door.

But to a seasoned Clarinetist, *it's the gateway to one hundred years of extraordinary reeds and mouthpieces.*

And now, it's the home of the most innovative reed ever made.

The **56 RUE LEPIC™** is a very special reed with a unique design that creates a longer vibrational palette for warm, rich sound and immediate response. It's amazing, but you know that. Because you know what happens behind that incredible door.

The Vandoren difference

New premium Bb Clarinet reed: 56 RUE LEPIC™

This exceptional reed can be distinguished by:

- 1/ Its musical qualities
- 2/ Its more specific scale of strengths
- 3/ Its revolutionary packaging

1/ Exceptional musical qualities.

- A strong spine assures security in all registers
- A newly designed vamp that provides optimal vibration
- A rich and centred sound
- An extremely pure and "woody" sound
- A reed that responds quickly ensuring precise attacks
- A stable intonation even in forte dynamics
- A round and homogenous sonority.
The reed's timbre is never dull

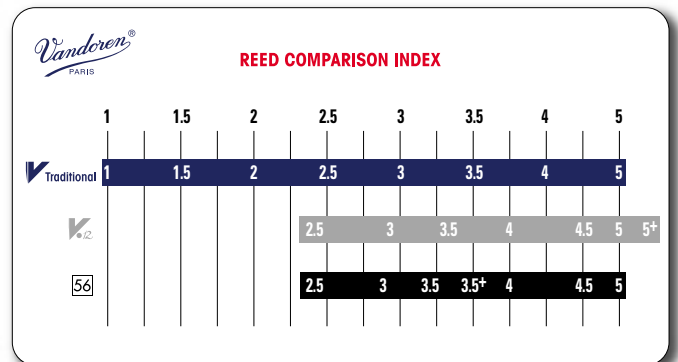

A topographical diagram of each cut, with the lines connecting areas of equal thickness. The more pointed the arch, the thicker the spine and heart, and conversely, the thinner the side bevels.

2/ More specific scale of strengths.

A new numbering system offers a more specific range of strengths in each box for consistent performance.

2.5	3	3.5	3.5+	4	4.5	5
CR5025	CR503	CR5035	CR5035+	CR504	CR5045	CR505

3/ Revolutionary packaging.

The new 56 RUE LEPIC™ comes in humidity balanced factory fresh packaging so all reeds play as if you selected them in Paris at 56, rue Lepic.
