

Super Action 80 Series II

E-flat alto saxophone

Super Action 80 Series II Alto Saxophone

The "Super Action 80 Series II" alto is no doubt the world's most popular professional alto saxophone. Its open sound, very rich in overtones, and excellent power of projection make it a particularly versatile instrument. In classic and jazz, its sound power and wide dynamic range put it in the top rank, ideal in the Quartet as well as in larger groups or orchestras. The extremely well balanced mechanism offers great precision in playing.
