

B12

Start with a legendary name

Plastic body rings

B12

The first notes and feelings are very important for a beginner. They help to develop acoustic capabilities as well as enhancing future artistic development.

That's why BUFFET CRAMPON developed its student clarinet range with the advice of talented professional music teachers.

You will appreciate this student clarinet for its ease of playing and its perfectly centred sound in all registers.

This model allows easy response and perfect accuracy, fulfilling the needs of players of all ages and standards.

Adjustable thumb rest

The B12 clarinet is made of ABS resin with an appearance and sound similar to that of genuine African blackwood.

This model is lightweight, strong and easy to clean perfect for even very young players.

All models in the student range are equipped with an adjustable thumb rest for correct and comfortable positioning (and a neck strap ring).
