

FLUTE

"We like to play JUPITER together. It's the best time in school to practice in the band."

diMEDICI Flutes

diMEDICI flutes represent a commitment to preserving traditional features in the making of modern instruments. The selection of custom headjoints and the material allows the player to tailor the sound, while custom key mechanisms individualize the playability and look of every instrument.

1211 & 1311 Series
14K Gold Plate

1111 / 1211 / 1311 Series

The diMEDICI 1111 flute features a Britannia silver headjoint with excellent cut which gives easy control of the sound expression achieving deep resonance with a dark and soft timbre. The diMEDICI 1211 and 1311 flutes feature 14K gold riser and sterling silver headjoint. It produces more flexible and warmer timbre.

1111 Series

- Model 1011 Series with .958 Britannia silver headjoint

1211 Series

- Model 911 Series with 14K gold riser

1311 Series

- Model 1011 Series with 14K gold riser

The Trio Flutes D'argent Stuttgart Famous Flute Ensemble in German

"What our flute ensemble needs are flutes perfectly in tune with each other. The response light as a feather and the elegant sound excited us right from the beginning. Therefore, we decide to use the diMEDICI series made by JUPITER. We do so, because the fine balance of the sound and an exact intonation make out our label."

Patrick Dillery

International Concert Soloist and Recording Artist
Renowned Educator Founder,
Patrick and Friends Ensemble

"When I'm asked which flute to buy, I recommend JUPITER for their immediate tonal response, ease of playability and intonation. JUPITER makes it possible for younger players to enjoy the benefits of ensemble playing by creating 'student' flutes with 'professional' standards."
