The Ultimate Ligature is more than just a trendy accessory, it has been conceived as an instrument in its own right.

The tightening by a single central screw ensures an even distribution of the pressure on the reed and allows the reed to vibrate freely without damping the natural vibration of the mouthpiece. Thanks to the resonating pipes this ligature generates a range of sympathetic vibrations that enrich the player's sound.

The Ultimate Ligature comes in three finishes:  
 The **Brass** is more resonant & vibrating  
 The **Silver** is more resistant & darker  
 The **Gold** has "elegance" and a slicker tone quality (polished)

## Interchangeable Pressure plates

A set of 3 interchangeable pressure plates is available for players who want to experiment with sound and tone colour.  
 1 Plate in stainless steel for a free, light and a flexible sound with a quick response  
 1 Plate in solid brass for a deeper tone with more resistance, mostly appreciated by classical players  
 1 Plate in rubber coated stainless steel; the ideal compromise—light and flexible, yet darker
