

901 Marigaux Oboe

MA901

\$14895

The characteristic tone of this instrument is dark and mellow. The dark shade and the veins of the hard, dense Grenadilla wood are clearly visible on the meticulously polished surface. The mechanical parts, which are made of nickel silver, are drop-forged and support the carefully finished, silverplated keys.

- Semi-automatic, grenadilla wood, silverplated keys.
- Wood rigorously selected, dried during at least four years.
- A traditional manufacture, true to the excellent reputation of French craftsmanship.
- A much easier and sharper low register (double correspondence on the bell).
- A high register which is even and direct.
- An excellent orchestral oboe played by the greatest ensembles worldwide.
- 3rd octave key, double F key
