### THE YAMAHA ADVANTAGE

Yamaha YCL681II Professional Soprano Clarinet features: One-piece grenadilla wood body resistant to temperature and humidity fluctuations, tapered tone holes with hand-tapered undercut. Each tone hole is individually hand-tapered and undercut for optimum tone quality, intonation, and uniform response throughout the instrument's range. Inset tone holes made of the same select grenadilla as the instrument's body and hand-adjusted for a perfect fit. Inset tone holes contribute to a clear, focused sound.
