

not loud **BIG**

not focused **COMPLEX**

not vintage **TIMELESS**

## Stealth Metal

The outside shape and look of a hard rubber mouthpiece but with the precision of Anodized Aluminum, the new Giant sounds like no other mouthpiece because it is made like no other mouthpiece. CNC machined to exact tolerances and a large chamber that is expertly hand finished, it produces an extraordinarily big, full rich and timeless sound...you won't want to stop playing.

### A Giant Step for Your Sound

The New JodyJazz Giant Tenor is Available in Tip Openings 6\*, 7\*, 8 & 8\*.
