

Nuvo Student Flute

Suitable for ages 8 years to adult

The Nuvo Student Flute is a step-up instrument from the recorder or the jFlute, when the child is big enough to handle the straight head joint and C foot joint.

The Nuvo Student Flute is ultra lightweight and produces a loud and resonant tone which makes it perfect for marching band, general music programs and high school orchestras.

As with all Nuvo instruments, we encourage students to keep the instrument out and available for a quick practice whenever the opportunity arises. There are individual wall hangers and desk stands as well as multi-instrument racks for the classroom. See School Storage.

Sold in individual cartons including coloured key caps and key extensions.

Teacher's Packs and Spares

Teacher's packs are available which provide extras and accessories that will assist teaching and maintaining your Nuvo instruments.

The Clarinéo Teacher's Pack includes the CD, DVD and tutor book so if you are not a clarinet player you will be able to quickly pick up the basics yourself and pass them on to your class. The pack also contains some extra reeds, cleaning cloths and other spare parts.

The Flute Teacher's Pack includes 3 x Firstnote lip plates, spare key caps, o'ring grease, tool kit and cleaning stick/cloth.

School Instruments

More practical means more practice!

Dear Teacher or Parent,

Thanks for taking the time to explore our instruments. We provide practical solutions for effective music teaching in the classroom. From kindergarten to high school band classes our instruments have been widely acclaimed by teachers around the world. With 40 years of music teaching and 20 years of product design, we set out to create exceptional instruments that are:

- Musically authentic
- Lightweight
- Low maintenance
- 100% waterproof (washable)
- Low cost
- Extremely durable
- Suitable for all ages

If you have any questions at all, we would like to hear from you.

Happy music teaching!

Max Clissold

Nuvo Recorder

Suitable for ages
3 to 8 years

Nuvo Soprano Recorders have a modern look and feel that is appealing to children. They have a smooth and resonant tone and are available in white with three colour options. The "bell" has three rubber o-rings which are partly decorative but can also be removed and used as a novel reward system as children pass learning milestones.

Nuvo Recorders are 100% waterproof so they can be washed frequently with warm soapy water.

Sold in packs of ten in a cardboard "pizza box"

Individual vinyl cases also available.

Recorder School Pack (10pcs) White/Pink	S300RDPK
Recorder "transvinyl" case	S325RDVC

Nuvo Clarinéo

Suitable for ages
4 to 12 years

The Nuvo Clarinéo is a clarinet in the key of C. It is perfect for general music programs as it can play any score in C such as recorder, piano, flute and vocal music. The beautiful mellow tone adds extra depth to a recorder ensemble and gives children a chance to learn a sophisticated reed instrument at an early age.

David Bradley - Woodwind Teacher, Temecula, CA *"The Clarinéo's smaller size and lighter weight makes it ideal for children who are too small to play the clarinet. It uses standard clarinet fingerings so transition to the clarinet is easy. It sounds great, requires very little maintenance, and is surprisingly durable."*

The Clarinéo uses plastic reeds and can also use cane reeds which are supplied in the optional teacher's pack.

Sold in individual cartons with one plastic reed, mouthpiece cap and adjustable thumb rest. Optional tutor book, CD and DVD available.

Nuvo jFlute

Suitable for ages
5 to 12 years

The Nuvo jFlute has been designed to encourage young starters who may find the weight and stretch of a traditional flute difficult. It weighs approximately half the weight of a traditional flute but produces a beautiful full sound with good intonation.

The jFlute is the perfect step-up instrument for a child who is making good progress with the recorder and is ready for a more advanced woodwind experience. The Nuvo Flute has an optional **Firstnote** lip plate which can be attached to the headjoint so it can be played much like the recorder. This is very useful for the first few weeks and the traditional lip plate can be snapped back on when the child is ready.

Sold in individual cartons including key extensions and coloured key caps which help the child identify the touch keys. Washable in warm soapy water.

Teacher's pack available.
